THE ANNALS INDEX VOLUME 28

Margaret Byrne Swain
University of California, Davis, USA

The previous Volume 27 index introduced very few new headwords. Two geographic place names (Peru and Aruba) and two conceptual terms (Nationalism and Gaze, touristic) were added. While the headword "Tourist, gaze" exists, several authors have noted that the host community and producers also "gaze" in dynamic tourism systems. Volume 28, however, challenges an annual parsimony of new headwords, with a number of additions. Two geographic names (Czech Republic and Slovakia), ten conceptual terms, and ten headword subcategories are added. The new headwords are APEC, Body/Bodies, Myth, Nationality, Other (the), Passport, Safety, Striptease, Travelers, and Vikings. New subcategories include Cultural, capital; Cultural, economy; Hotel, evaluation; Information, exchange; Methodology, analytical, residual; Model, time; Social, interaction; Tourist, harassment; Urban, -rural; Values, host. Perhaps there is a development cycle for tourism research journal content-headwords.
